Bekasi, Indonesia.

As a driven Information Technology student, I bring a robust three-year background as a production operator to the table, where I have honed my expertise in programming, web development, and graphic design. My proficiency in these areas is underpinned by a strong analytical mindset and outstanding problem-solving abilities. I am known for my collaborative approach, which I believe is essential for success in both technology and manufacturing environments. I am keen to leverage my skills and experience to make significant contributions to projects that drive innovation and efficiency.
